

Dear Last Conservative,

I just wanted to say that our whole school really enjoyed your performance. At first, I didn't really think I was going to like the concert, because I don't really listen to that music. But I loved it. My favorite song was The Answer, because a girl on my basketball team thought about committing suicide, and your song really touched her. I think it was very nice of you to stay with us the whole day. I love your songs and thanks for coming!

Love Always,
-- Taylor
