

Thank You Last Conservative!

Dear Last Conservative,

Thank you so much for coming to Depew High School and performing! You guys are seriously awesome. But, most importantly, I think the message that you sent out to all the students was most important. When you said that you should always talk to your friends, I really liked that. Because I honestly think that is true, sometimes someone can just be keeping all their anger inside of them, and afraid to speak to someone about it. And I think it's important that everyone has someone to talk to about anything. I also liked how you said that when you guys were younger and still in school, you weren't always the coolest kids. Well, that just goes to show that anyone can do anything that they put their mind to. That is really the message I got out of your performance. Back to the other message about talking to your friends, I mean just that day, my friends and I started talking to each other about different things at lunch. So, I really think that you did get a positive message out to all the kids. I also really liked how your music was really a reflection on some real life experiences you guys had. I thought that was real cool. So, I really am just writing this note just to say how much it really meant that you came to our school. I really think I got a lot out of it, and plus I'm going to that concert of yours on the 25th! So, in a closing, thank you so much for coming and performing, it meant a whole lot.

Yours Truly,

Alexis Wayne

and Depew High School
