December 3, 2005

Dear Denise:

I would like to thank The Music is Art Foundation and The Juliet Dagger musicians for performing for our students at Hopevale UFSD. The Juliet Dagger musicians' energy, talent and commitment to youth should be commended. The message of commitment to personal responsibility and the impact music has had in their lives was excellent.

The set-up and performance was conducted professionally with the focus on providing as many opportunities for students to be involved as possible. This was thrilling for our students. The students particularly enjoyed having the opportunity to talk to the band after the performance.

A special thank you for Robby Takac of the Goo Goo Dolls for his video message and support of the Music is Art Foundation.

Thank you again for such an enjoyable experience.

Sincerely,

*Cindy Stachowski*
