To Whom It May Concern:

I am pleased to take an opportunity to write a letter in support of the Music In Education Foundation initiative that Good Charamel Records is promoting.

Recently, we were fortunate to be able to have Robbie Takac, from the band the "Goo-Goo Dolls" come to Tonawanda Senior High School. Robby introduced the national recording artists, "Last Conservative" as part of the music awareness tour. Our student body and faculty received this performance very well. The message that Robby and "Last Conservative" gave to our students was excellent. The artists spoke about having responsibility in their lives and dedicating themselves to reaching positive goals.

Music Is Art is a nonprofit organization, which encourages young men and women to make positive contributions to the world of music. I recommend that you consider having Robby Takac and the "Last Conservative" come to visit your high school. Your students will love the concert, and benefit from the healthy message that Robby and the "Last Conservative" promote.

Sincerely,

George W. Batterson, Ed. D.
Superintendent of Schools
